History of the Americas

History of Latin America (2008) Kennedy, David M., Lizabeth Cohen, and Thomas Bailey. The American Pageant (2 vol 2008), U.S. history The Canadian Encyclopedia

The human history of the Americas is thought to begin with people migrating to these areas from Asia during the height of an ice age. These groups are generally believed to have been isolated from the people of the "Old World" until the coming of Europeans in 1492 with the voyages of Christopher Columbus.

The ancestors of today's American Indigenous peoples were the Paleo-Indians; they were hunter-gatherers who migrated into North America. The most popular theory asserts that migrants came to the Americas via Beringia, the land mass now covered by the ocean waters of the Bering Strait. Small lithic stage peoples followed megafauna like bison, mammoth (now extinct), and caribou, thus gaining the modern nickname "big-game hunters." Groups of people may also have traveled into North America on...

African-American history started with the forced transportation of Africans to North America in the 16th and 17th centuries. The European colonization of the Americas, and the resulting Atlantic slave trade, encompassed a large-scale transportation of enslaved Africans across the Atlantic. Of the roughly 10–12 million Africans who were sold in the Atlantic slave trade, either to Europe or the Americas, approximately 388,000 were sent to North America. After arriving in various European colonies in North America, the enslaved Africans were sold to European colonists, primarily to work on cash crop plantations. A group of enslaved Africans arrived in the English Virginia Colony in 1619, marking the beginning of slavery in the colonial history of the United States; by 1776, roughly 20% of the...

The American Civil War (April 12, 1861 – May 26, 1865; also known by other names) was a civil war in the United States between the Union ("the North") and the Confederacy ("the South"), which was formed in 1861 by states that had seceded from the Union. The central conflict leading to war was a dispute over whether slavery should be permitted to expand into the western territories, leading to more slave states, or be prohibited from doing so, which many believed would place slavery on a course of ultimate extinction.

Decades of controversy over slavery came to a head when Abraham Lincoln, who opposed slavery's expansion, won the 1860 presidential election. Seven Southern slave states responded to Lincoln's victory by seceding from the United States and forming the Confederacy. The Confederacy...

English literature is a form of literature written in the English language from the English-speaking world. The English language has developed over more than 1,400 years. The earliest forms of English, a set of Anglo-Frisian dialects brought to Great Britain by Anglo-Saxon settlers in the fifth century, are called Old English. Beowulf is the most famous work in Old English. Despite being set in Scandinavia, it has achieved national epic status in England. However, following the Norman Conquest of England in 1066, the written form of the Anglo-Saxon language became less common. Under the influence of the new aristocracy, French became the standard language of courts, parliament, and polite society. The English spoken after the Normans came is known as Middle English. This form of English lasted...
