Testing effect

you know about good study habits in the New York Times Students Should Be Tested More, Not Less in the Atlantic Comprehensive Guide to Applying Active

The testing effect (also known as retrieval practice, active recall, practice testing, or test-enhanced learning) suggests long-term memory is increased when part of the learning period is devoted to retrieving information from memory. It is different from the more general practice effect, defined in the APA Dictionary of Psychology as "any change or improvement that results from practice or repetition of task items or activities."

Cognitive psychologists are working with educators to look at how to take advantage of tests—not as an assessment tool, but as a teaching tool since testing prior knowledge is more beneficial for learning when compared to only reading or passively studying material (even more so when the test is more challenging for memory).

AP International English Language

Advanced Placement (AP) International English Language (also known as APIEL) is an AP Examinations course managed by Educational Testing Service (ETS)

Advanced Placement (AP) International English Language (also known as APIEL) is an AP Examinations course managed by Educational Testing

Service (ETS) with the sponsorship of the College Board in New York. It is designed for non-native speakers to prepare for studying in an English-speaking university, particularly in North America. The course also gives students a chance to earn college credit. The three-hour exam assesses four language skills: listening, reading, writing, and speaking. The test paper has two sections: multiple-choice questions and free-response questions. APIEL committee consists of high school and university English teachers from Belgium, China, France, Germany, Switzerland, and the United States.

Exam

1952, the first Advanced Placement (AP) test was administered to begin closing the gap between high schools and colleges. Tests are used throughout most

An examination (exam or evaluation) or test is an educational assessment intended to measure a test-taker's knowledge, skill, aptitude, physical fitness, or classification in many other topics (e.g., beliefs). A test may be administered verbally, on paper, on a computer, or in a predetermined area that requires a test taker to demonstrate or perform a set of skills.

Tests vary in style, rigor and requirements. There is no general consensus or invariable standard for test formats and difficulty. Often, the format and difficulty of the test is dependent upon the educational philosophy of the instructor, subject matter, class size, policy of the educational institution, and requirements of accreditation or governing bodies.

A test may be administered formally or informally. An example of an informal...

AP Statistics

Advanced Placement program has offered students the opportunity to pursue college-level courses while in high school. Along with the Educational Testing Service

Advanced Placement (AP) Statistics (also known as AP Stats) is a college-level high school statistics course offered in the United States through the College Board's Advanced Placement program. This course is equivalent to a one semester, non-calculus-based introductory college statistics course and is normally offered to sophomores, juniors and seniors in high school.

One of the College Board's more recent additions, the AP Statistics exam was first administered in May 1996 to supplement the AP program's

math offerings, which had previously consisted of only AP Calculus AB and BC. In the United States, enrollment in AP Statistics classes has increased at a higher rate than in any other AP class.

Students may receive college credit or upper-level college course placement upon passing the three...

Shmoop

specializes in test preparation materials, mental health tools, and learning content for K-12 schools. Shmoop offers free study guides aimed at teens

Shmoop University Inc. (popularly known as Shmoop) is a for-profit online educational technology company that specializes in test preparation materials, mental health tools, and learning content for K-12 schools. Shmoop offers free study guides aimed at teens on a range of subjects, including literature, biology, poetry, U.S. History, civics, financial literacy, and music.

The website also offers test prep materials for common standardized tests, such as the ACT and the SAT. Materials for these tests are part of a paid monthly subscription package.

School Year Abroad

made early in the year if appropriate. Math placement is based on prior experience and a placement test. Courses meet for a minimum of four 45-minute

School Year Abroad (SYA) places American high school sophomores, juniors and seniors in one of three independently operated schools in Italy, France or Spain for a full academic year. From 1994 to 2020, SYA operated a campus in China. Students intensively learn the respective language of their country and live with a carefully selected host family. The program includes extensive cultural immersion, wherein select courses are taught in the native language, and requisite subjects such as math and English, are taught in English.

SYA provides academic advisors, college counseling services, and administers the AP, SAT, SAT II, and PSAT tests at each school. Students earn U.S. high school credits while attending SYA, and preparing for selective U.S. colleges and universities. SYA guides students...

College Board

desirable), and a plan of examination suitable as a test for admission to college: Botany, Chemistry, English, French, German, Greek, History, Latin, Mathematics

The College Board, styled as CollegeBoard, is an American not-for-profit organization that was formed in December 1899 as the College Entrance Examination Board (CEEB) to expand access to higher education. While the College Board is not an association of colleges, it runs a membership association of institutions, including over 6,000 schools, colleges, universities, and other educational organizations.

The College Board develops and administers standardized tests and curricula used by K-12 and post-secondary education institutions to promote college-readiness and as part of the college admissions process. The College Board is headquartered in New York City. David Coleman has been the CEO of the College Board since October 2012. He replaced Gaston Caperton, former governor of West Virginia,...

AP English Literature and Composition

Advanced Placement (AP) English Literature and Composition (also known as Senior AP English, AP Lit, APENG, or AP English IV) is a course and examination

Advanced Placement (AP) English Literature and Composition (also known as Senior AP English, AP Lit, APENG, or AP English IV) is a course and examination offered by the College Board as part of the Advanced Placement Program in the United States.

Concrete

Method used to test concrete Gagg, Colin R. (May 2014). "Cement and concrete as an engineering material: An historic appraisal and case study analysis". Engineering

Concrete is a composite material composed of aggregate bound together with a fluid cement that cures to a solid over time. It is the second-most-used substance (after water), the most-widely used building material, and the most-manufactured material in the world.

When aggregate is mixed with dry Portland cement and water, the mixture forms a fluid slurry that can be poured and molded into shape. The cement reacts with the water through a process called hydration, which hardens it after several hours to form a solid matrix that binds the materials together into a durable stone-like material with various uses. This time allows concrete to not only be cast in forms, but also to have a variety of tooled processes performed. The hydration process is exothermic, which means that ambient temperature...
