Managed care

conditions. Two commonly used UM criteria frameworks are the McKesson InterQual criteria and MCG (previously known as the Milliman Care Guidelines). In

In the United States, managed care or managed healthcare is a group of activities intended to reduce the cost of providing health care and providing health insurance while improving the quality of that care. It has become the predominant system of delivering and receiving health care in the United States since its implementation in the early 1980s, and has been largely unaffected by the Affordable Care Act of 2010.

...intended to reduce unnecessary health care costs through a variety of mechanisms, including: economic incentives for physicians and patients to select less costly forms of care; programs for reviewing the medical necessity of specific services; increased beneficiary cost sharing; controls on inpatient admissions and lengths of stay; the establishment of cost-sharing incentives...
