Robot-assisted surgery

Faridpooya K, Mura M (May 2018). "Robotic-assisted surgery in ophthalmology". Current Opinion in Ophthalmology. 29 (3): 248–253. doi:10.1097/ICU.0000000000000476

Robot-assisted surgery or robotic surgery are any types of surgical procedures that are performed using robotic systems. Robotically assisted surgery was developed to try to overcome the limitations of pre-existing minimally-invasive surgical procedures and to enhance the capabilities of surgeons performing open surgery.

In the case of robotically assisted minimally-invasive surgery, instead of the surgeon directly moving the instruments, the surgeon uses one of two methods to perform dissection, hemostasis and resection, using a direct telemanipulator, or through computer control.

A telemanipulator (e.g. the da Vinci Surgical System) is a system of remotely controlled manipulators that allows the surgeon to operate real-time under stereoscopic vision from a control console separate from the...

Surgery

surgery Women in medicine Bariatric surgery Cardiac surgery Cardiothoracic surgery Colorectal surgery Endocrine surgery Ophthalmology General surgery

Surgery is a medical specialty that uses manual and instrumental techniques to diagnose or treat pathological conditions (e.g., trauma, disease, injury, malignancy), to alter bodily functions (e.g., malabsorption created by bariatric surgery such as gastric bypass), to reconstruct or alter aesthetics and appearance (cosmetic surgery), or to remove unwanted tissues, neoplasms, or foreign bodies.

The act of performing surgery may be called a surgical procedure or surgical operation, or simply "surgery" or "operation". In this context, the verb "operate" means to perform surgery. The adjective surgical means pertaining to surgery; e.g. surgical instruments, surgical facility or surgical nurse. Most surgical procedures are performed by a pair of operators: a surgeon who is the main operator performing...

Residency (medicine)

region, with Plastic Surgery, Ophthalmology, Dermatology, and ENT being the most competitive. Residency durations range from 3 to 7 years, depending

Residency or postgraduate training is a stage of graduate medical education. It refers to a qualified physician (one who holds the degree of MD, DO, MBBS/MBChB), veterinarian (DVM/VMD, BVSc/BVMS), dentist (DDS or DMD), podiatrist (DPM), optometrist (OD),

pharmacist (PharmD), or Medical Laboratory Scientist (Doctor of Medical Laboratory Science) who practices medicine or surgery, veterinary medicine, dentistry, optometry, podiatry, clinical pharmacy, or Clinical Laboratory Science, respectively, usually in a hospital or clinic, under the direct or indirect supervision of a senior medical clinician registered in that specialty such as an attending physician or consultant.

The term residency is named as such due to resident physicians (resident doctors) of the 19th century residing at the dormitories...

Doctor of Medicine

(e.g. Anatomy, General Surgery, Orthopaedics, Obstetrics/Gynaecology, Ophthalmology), the candidate gets a MS (Master of Surgery) degree, these are specialist

A Doctor of Medicine (abbreviated M.D., from the Latin *Medicinae Doctor* or *Dr. med.*, from the inverse construction) is a medical degree, the meaning of which varies between different jurisdictions. In the United States, and some other countries, the MD denotes a professional degree of physician. This generally arose because many in 18th-century medical professions trained in Scotland, which used the MD degree nomenclature. In England, however, Bachelor of Medicine, Bachelor of Surgery (MBBS) was used: in the 19th century, it became the standard in Scotland too. Thus, in the United Kingdom, Ireland

and other countries, the MD is a research doctorate, honorary doctorate or applied clinical degree restricted to those who already hold a professional degree (Bachelor's/Master's/Doctoral) in medicine...

American Mission Hospital

The American Mission Hospital is a 120 year old private not-for-profit hospital located in Manama, Bahrain.

Established in 1903, as the Mason Memorial Hospital, it was the first modern hospital in the country and, possibly, along the entire Persian Gulf region. The hospital offers specialist medical, dental, and wellness services from its main branch in Manama, and from its branches or satellite clinics in the country, located at Saar, Amwaj Islands and Riffa.

Coinciding with its 120th anniversary, a fifth and the largest branch, King Hamad American Mission Hospital, was opened in A'Ali on 26 January 2023. It started receiving patients at the new branch, from March 2023.

Estriol (medication)

December 2012). Geriatrics 3: Gynecology · Orthopaedics · Anesthesiology · Surgery · Otorhinolaryngology · Ophthalmology · Dermatology. Springer Science

Estriol (E3), sold under the brand name Ovestin among others, is an estrogen medication and naturally occurring steroid hormone which is used in menopausal hormone therapy. It is also used in veterinary medicine as Incurin to treat urinary incontinence due to estrogen deficiency in dogs. The medication is taken by mouth in the form of tablets, as a cream that is applied to the skin, as a cream or pessary that is applied in the vagina, and by injection into muscle.

Estriol is well-tolerated and produces relatively few adverse effects. Side effects may include breast tenderness, vaginal discomfort and discharge, and endometrial hyperplasia. Estriol is a naturally occurring and bioidentical estrogen, or an agonist of the estrogen receptor, the biological target of estrogens like endogenous estradiol...

Valence, Drôme

and rehabilitation. The Surgery and Anesthesia Centre block welcomes orthopaedics, ENT, the ophthalmology, gynecological surgery, urology, neurosurgery

Valence (US: , French: [valãs] ; Occitan: Valença [va'lenso]) is a commune in southeastern France, the prefecture of the Drôme department and within the Auvergne-Rhône-Alpes region. It is situated on the left bank of the Rhône, about 100 kilometres (62 mi) south of Lyon, along the railway line that runs from Paris to Marseille.

It is the eighth-largest city in the region by its population and has 64,726 registered inhabitants in 2018 (132,556 inhabitants in the urban area (unité urbaine). The city is divided into four cantons.

Located in the heart of the Rhone corridor, Valence is often referred to as "the door to the South of France", the local saying à Valence le Midi commence ("at Valence the Midi begins") pays tribute to the city's southern culture. Between Vercors and Provence, its geographical...
