Outboard motor

September 2015. "Briggs & Stratton Outboard Motor Review", duckworksmagazine.com. Retrieved 17 September 2015. "Boat motor starts and dies after few secs

An outboard motor is a propulsion system for boats, consisting of a self-contained unit that includes engine, gearbox and propeller or jet drive, designed to be affixed to the outside of the transom. They are the most common motorised method of propelling small watercraft. As well as providing propulsion, outboards provide steering control, as they are designed to pivot over their mountings and thus control the direction of thrust. The skeg also acts as a rudder when the engine is not running. Unlike inboard motors, outboard motors can be easily removed for storage or repairs.

In order to eliminate the chances of hitting bottom with an outboard motor, the motor can be tilted up to an elevated position either electronically or manually. This helps when traveling through shallow waters where...

Bricklin SV-1

quarterly magazine. The cars were powered by a 3 hp (2.2 kW) Briggs & Stratton gasoline engine and could be ordered in any of the Bricklin factory colours

The Bricklin SV-1 is a two-seat sports car produced by American businessman Malcolm Bricklin and his manufacturing company from 1974 until late 1975. The car was noteworthy for its gull-wing doors and composite bodywork of color-

impregnated acrylic resin bonded to fiberglass. Assembly took place in Saint John, New Brunswick, Canada. The name SV-1 is an abbreviation of "safety vehicle one". Bricklin company literature uses both the SV-1 and SV1 formats. To promote the car's safety bona fides, the company touted such features as its integrated roll-over structure and energy-absorbing bumpers.

List of aircraft engines

Brewer) Brewer Type M Gryphon O-8 Brewer 250 hp O-12 Brewer 500 hp X-16 Briggs & Stratton Vanguard Big Block V-Twin Division of Bristol Aeroplane Company formed

This is an alphabetical list of aircraft engines by manufacturer.

Tata Nano

of the Nano was only just higher than the corrected price of the Briggs & Stratton Flyer of the 1910s, with the Flyer costing US\$125 (\$1,767 in 2016)[citation

The Tata Nano is a city car/microcar manufactured and marketed by Indian automaker Tata Motors over a single generation from 2008-2018 and since 2017 for the Jayem Neo, primarily in India, as an inexpensive rear-engine hatchback for motorcycle and scooter drivers — with a launch price of ₹100,000 (US\$1,500) on 10 January 2008.

Tata Motors projected production figures of 250,000 annually at launch. This was not achieved, and various factors led to a decline in sales volume, including delays during the factory relocation from Singur to Sanand, early instances of the Nano catching fire and the perception that the Nano was unsafe and lacked quality from its aggressive cost cutting. Actual sales reached 7,591 for model year 2016-2017. The project lost money, as confirmed by former Tata Sons chairman...

Alvis Car and Engineering Company

civilian market, the company also produced racing cars, aircraft engines, armoured cars, and other armoured fighting vehicles. Car manufacturing ended after

Alvis Car and Engineering Company Ltd was a British manufacturing company in Coventry from 1919 to 1967. In addition to automobiles designed for the civilian market, the company also produced racing cars, aircraft engines, armoured cars, and other armoured fighting vehicles.

Car manufacturing ended after the company became a subsidiary of Rover in 1965, but armoured vehicle manufacture continued. Alvis became part of British Leyland and then in 1982 was sold to United Scientific Holdings, which renamed itself Alvis plc.

In 2023, its successor company began manufacturing the brand's classic models again.

Fuel economy in automobiles

and/or automated clutch control but manual shifting, as with older semi-automatic transmissions. Air conditioning. The power required for the engine to

The fuel economy of an automobile relates to the distance traveled by a vehicle and the amount of fuel consumed. Consumption can be expressed in terms of the volume of fuel to travel a distance, or the distance traveled per unit volume of fuel consumed. Since fuel consumption of vehicles is a significant factor in air pollution, and since the importation of motor fuel can be a large part of a nation's foreign trade, many countries impose requirements for fuel economy.

Different methods are used to approximate the actual performance of the vehicle. The energy in fuel is required to

overcome various losses (wind resistance, tire drag, and others) encountered while propelling the vehicle, and in providing power to vehicle systems such as ignition or air conditioning. Various strategies can be...

Port Washington, Wisconsin

the 1970s and 2000s. In 2001, MTD Products acquired the Bolens Corporation. In 2004, Briggs & Stratton purchased Simplicity Manufacturing and closed the

Port Washington is a city in Ozaukee County, Wisconsin, United States, and its county seat. Located on Lake Michigan's western shore east of Interstate 43, the community is a suburb in the Milwaukee metropolitan area 27 miles (43 km) north of Milwaukee. The city's artificial harbor at the mouth of Sauk Creek was dredged in the 1870s and was a commercial port until the early 2000s. The population was 12,353 at the 2020 census.

When French explorers arrived in the area in the 17th century, they found a Native American village at the mouth of Sauk Creek—the present location of historic downtown Port Washington. The United States Federal Government forcibly expelled the Native Americans in the 1830s, and the first settlers arrived in 1835, calling their settlement "Wisconsin City" before renaming...

National Register of Historic Places listings in Detroit

transportation resources afforded by the river and a parallel rail line. The shipyard that eventually became the Dry Dock Engine Works-Detroit Dry Dock Company Complex

This is a list of the National Register of Historic Places listings in Detroit, Michigan.

This is intended to be a complete list of the properties and districts on the National Register of Historic Places in Detroit,

Michigan, United States. Latitude and longitude coordinates are provided for many National Register properties and districts; these locations may be seen together in an online map.

There are 364 properties and districts listed on the National Register in Wayne County, including 14 National Historic Landmarks. The city of Detroit is the location of 283 of these properties and districts, including 10 National Historic Landmarks; those outside downtown and midtown are listed here, while the properties and districts outside Detroit, including 4 National Historic Landmarks, are listed...

List of White Pass and Yukon Route locomotives and cars

two freight engines, box and flat cars, mail and baggage cars, two passenger coaches and two combination coaches. Two passenger engines are expected

The White Pass and Yukon Route railroad has had a large variety of locomotives and railroad cars.

List of Super Bowl commercials

Joe Theisman (1983)

0:30 (USA)". adland.tv. January 30, 1983. "Briggs & Stratton - Invisible (1983) - 0:30 (USA)

Adland®". adland.tv. January 30, 1983 - The commercials which are aired during the annual television broadcast of the National Football League Super Bowl championship draw considerable attention. In 2010, Nielsen reported that 51% of viewers prefer the commercials to the game itself. This article does not list advertisements for a local region or station (e.g. promoting local news shows), pre-kickoff and post-game commercials/sponsors, or in-game advertising sponsors and television bumpers.
