Cognitive behavioral therapy

Research and Quality (AHRQ). doi:10.23970/ahrqepccer276. Clark DA, Beck AT (2023). The anxiety and worry workbook: the cognitive behavioral solution. Psychology

Cognitive behavioral therapy (CBT) is a form of psychotherapy that aims to reduce symptoms of various mental health conditions, primarily depression, and disorders such as PTSD and anxiety disorders. This therapy focuses on challenging unhelpful and irrational negative thoughts and beliefs, referred to as 'self-talk' and replacing them with more rational positive self-talk. This alteration in a person's thinking produces less anxiety and depression. It was developed by psychoanalyst Aaron Beck in the 1950's.

Cognitive behavioral therapy focuses on challenging and changing cognitive distortions (thoughts, beliefs, and attitudes) and their associated behaviors in order to improve emotional regulation and help the individual develop coping strategies to address problems.

Though originally designed...

Croatia

2010 Statistical Yearbook of the Republic of Croatia, pp. 298–302. 2018 Statistical Yearbook of the Republic of Croatia, p. 307. 2018 Statistical Yearbook

Croatia, officially the Republic of Croatia, is a country in Central and Southeast Europe, on the coast of the Adriatic Sea. It borders Slovenia to the northwest, Hungary to the northeast, Serbia to the east, Bosnia and Herzegovina and Montenegro to the

southeast, and shares a maritime border with Italy to the west. Its capital and largest city, Zagreb, forms one of the country's primary subdivisions, with twenty counties. Other major urban centers include Split, Rijeka and Osijek. The country spans 56,594 square kilometres (21,851 square miles), and has a population of nearly 3.9 million.

The Croats arrived in modern-day Croatia, then part of Roman Illyria, in the late 6th century. By the 7th century, they had organized the territory into two duchies. Croatia was first internationally recognized...

Attention deficit hyperactivity disorder

requiring interventions begin. According to the fifth edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM-5) and its text revision (DSM-5-TR)

Attention deficit hyperactivity disorder (ADHD) is a neurodevelopmental disorder characterised by symptoms of inattention, hyperactivity, impulsivity, and emotional dysregulation that are excessive and pervasive, impairing in multiple contexts, and developmentally inappropriate. ADHD symptoms arise from executive dysfunction.

Impairments resulting from deficits in self-regulation such as time management, inhibition, task initiation, and sustained attention can include poor professional performance, relationship difficulties, and numerous health risks, collectively predisposing to a diminished quality of life and a reduction in life expectancy. As a consequence, the disorder costs society hundreds of billions of US dollars each year, worldwide. It is associated with other mental disorders as...

Dextroamphetamine

Substance-use disorder: A diagnostic term in the fifth edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM-5) referring to recurrent

Dextroamphetamine is a potent central nervous system (CNS) stimulant and enantiomer of amphetamine that is used in the treatment of attention deficit hyperactivity disorder (ADHD) and narcolepsy. It is also used illicitly to enhance cognitive and athletic performance, and recreationally as an aphrodisiac and euphoriant. Dextroamphetamine is generally regarded as the prototypical stimulant.

The amphetamine molecule exists as two enantiomers, levoamphetamine and dextroamphetamine. Dextroamphetamine is the dextrorotatory, or 'right-handed', enantiomer and exhibits more pronounced effects on the central nervous system than levoamphetamine. Pharmaceutical dextroamphetamine sulfate is available as both a brand name and generic drug in a variety of dosage forms. Dextroamphetamine is sometimes prescribed...

Silviculture

Silviculture is the practice of controlling the growth, composition/structure, as well as quality of forests to meet values and needs, specifically timber

Silviculture is the practice of controlling the growth, composition/structure, as well as quality of forests to meet values and needs, specifically timber production.

The name comes from the Latin silvi- ('forest') and culture ('growing'). The study of forests and woods is termed silvology. Silviculture also focuses on making sure that the treatment(s) of forest stands are used to conserve and improve their productivity.

The professional is known as silviculturist.

Generally, silviculture is the science and art of growing and cultivating forest crops based on a knowledge of silvics, the study of the life history and general characteristics of forest trees and stands, with reference to local/regional factors. The focus of silviculture is the control, establishment and management of forest stands...

Domestic violence

violence: solutions and dead ends ". *Psychological Trauma: Theory, Research, Practice, and Policy*. 1: 24-34.
doi:10.1037/a0015066. Coercive Control: How Men

Domestic violence is violence that occurs in a domestic setting, such as in a marriage or cohabitation. In a broader sense, abuse including nonphysical abuse in such settings is called domestic abuse. The term domestic violence is often used as a synonym for intimate partner violence, which is committed by one of the people in an intimate relationship against the other, and can take

place in relationships or between former spouses or partners. In a broader sense, the term can also refer to violence against one's family members; such as children, siblings or parents.

Forms of domestic abuse include physical, verbal, emotional, financial, religious, reproductive and sexual. It can range from subtle, coercive forms to marital rape and other violent physical abuse, such as choking, beating, female...

Human impact on the environment

Retrieved 10 December 2020. Miller GT (2004), Sustaining the Earth, 6th edition. Thompson Learning, Inc. Pacific Grove, California. Chapter 9, pp. 211-216

Human impact on the environment (or anthropogenic environmental impact) refers to changes to biophysical environments and to ecosystems, biodiversity, and natural resources caused directly or indirectly by humans. Modifying the environment to fit the needs of society (as in the built environment) is causing severe effects including global warming, environmental degradation (such as ocean acidification), mass extinction and biodiversity loss, ecological crisis, and ecological collapse. Some human activities that cause damage (either directly or indirectly) to the environment on a global scale include population growth, neoliberal economic policies and rapid economic growth, overconsumption, overexploitation, pollution, and deforestation. Some of the problems, including global warming and biodiversity...

Military history of Italy

triumphantly, only to wait three weeks, then fly back to Rome. Field Marshal Montgomery won at El Alamein in October 1942 for the British. This victory coincided

The military history of Italy chronicles a vast time period, lasting from the military conflicts fought by the ancient peoples of Italy, most notably the conquest of the Mediterranean world by the ancient Romans, through medieval warfare, the expansion of the Italian city-states and maritime republics, the involvement of the historical Italian states in the Italian Wars and the wars of succession, to the Napoleonic period, the Italian unification (known as Risorgimento), the campaigns of the colonial empire, the two world wars, and into the modern day, with world peacekeeping operations under the aegis of NATO, the EU or the UN. The Italian peninsula has been a centre of military conflict throughout European history due to its geostrategic position: because of this, Italy has a long military...

Presidency of Barack Obama

Shutdown and Debt Limit; *The New York Times*. Retrieved August 19, 2016. Montgomery, Lori (December 18, 2013). *Senate passes bipartisan budget agreement*;

Barack Obama's tenure as the 44th president of the United States began with his first inauguration on January 20, 2009, and ended on January 20, 2017. Obama, a Democrat from Illinois, took office following his victory over Republican nominee John McCain in the 2008 presidential election. Four years later, in the 2012 presidential election, he defeated Republican nominee Mitt Romney, to win re-election. Alongside Obama's presidency, the Democratic Party also held their majorities in the House of Representatives under Speaker Nancy Pelosi and the Senate under Senate Majority Leader Harry Reid during the 111th U.S. Congress. Obama is the first African American president, the first multiracial president, the first non-white president, and the first president born in Hawaii. Obama was constitutionally...

History of the New York City Subway

Its operator is the New York City Transit Authority (NYCTA), which is controlled by the Metropolitan Transportation Authority (MTA) of New York. In 2016

The New York City Subway is a rapid transit system that serves four of the five boroughs of New York City, New York: the Bronx, Brooklyn, Manhattan, and Queens. Its operator is the New York City Transit Authority (NYCTA), which is controlled by the Metropolitan Transportation Authority (MTA) of New York. In 2016, an average of 5.66 million passengers used the system daily, making it the busiest rapid transit system in the United States and the seventh busiest in the world.

By the late 1870s the Manhattan Railway Company was an elevated railway company in Manhattan and the Bronx, New York City, United States. It operated four lines: the Second Avenue Line, Third Avenue Line, Sixth Avenue Line, and Ninth Avenue Line.

The first underground line opened on October 27, 1904, almost 35 years after...
