

Mitsubishi Engines 4d30 Hp

Interavia

Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California. RRE is the most well-known and respected Mitsubishi turbo performance shop in the United States, and Garcia is its in-house engine builder. Mitsubishi enthusiasts will benefit from Garcia's expertise and be able to build better, stronger engines than ever before. \"How to Build Max-Performance Mitsubishi 4G63t Engines\" covers every system and component of the engine, including the turbocharger system and engine management. More than just a collection of tips and tricks, this book includes a complete history of the engine and its evolution, an identification guide, and advice for choosing engine components and other parts. Profiles of successful built-up engines show the reader examples of what works, and the book includes helpful guidance for choosing your own engine building path.

Mitsubishi-Sulzer Diesel Engines

The Chrysler Corporation started using Mitsubishi engines many years earlier. It was a great success and the alliance continued when the Mitsubishi 3000GT appeared wearing Dodge badges and the name Stealth. By this stage Mitsubishi had demonstrated that it was fully capable of competing alongside the longer-established super-coupT builders and the sleek 3000GT boasted 0-60mph in under six seconds straight out of the box. This is a book of contemporary road and comparison tests, technical and specification data, new model introductions, driver's impressions. Models covered include: 3000GT, Stealth R/T, 3000GT VR-4, Stealth R/T turbo, Stealth ES, 3000GT Spyder VR-4.
